The town of Dearfield will go over the top this year. The farmers have made it and the town must be built up to keep pace with the farmers. We are going to sell 200 lots in pairs at $1 down on each lot and $1 per month on each lot to raise money to build some small houses to accomodate farm laborers, so that the value of lots purchased will be increased double.

We cannot find Negro capitalists to make a profitable investment in building small houses, but we know we can find a lot of enterprising race building Negroes who can invest a couple of dollars per month to put the TOWN OF DEARFIELD over.

Mrs. Dan Williams, 2445 Glenarm street, will call on you for your subscription. Don't turn her down for we need your support more so now than ever to establish the business now necessary to deal with the farmers and keep the money produced by the farmers circulating among our people until the wings of the eagles are worn from the dollars before they leave the settlers and investors. Now is the time to prove your race interest by subscribing for a pair of lots. Every dollar from the sale of these choice lots will be invested in improving the town. See Mrs. Dan Williams or the Industrial Realty Company and get your lots before the raise in price. No more lots will ever be offered at this low price.
